LAKEVIEW VILLAGE

Contemporary Towns
The Gateway to
Lakeview Village

The 16' Rear Lane series is simply sophisticated. Offering smart, flexible living with 2-4 bedroom layouts, up to 4.5 baths, and the day-to-day convenience of a private garage with direct access into the home—a practical advantage for families, commuters, and anyone who values ease and security.

Thoughtfully designed 3-storey layouts create natural separation between living, working, and resting spaces, while optional suites, dual primary configurations, and generous terraces allow homeowners to personalize for entertaining, multi-generational living, or evolving lifestyle needs.

Clean, contemporary elevations and sheltered entryways complete a home that balances modern style with highly functional everyday comfort.

Crafted for Comfort,
Convenience,
and the Rhythm
of Real Life

No matter which way you look at the Rear Lane Collection, each of Pier Houses' elevations is considered for maximum appeal.

Thoughtfully composed in complementary light and dark palettes, the Pier House Rear Lane Collection presents a modern architectural profile defined by clean lines, warm masonry, and inviting portico entries.

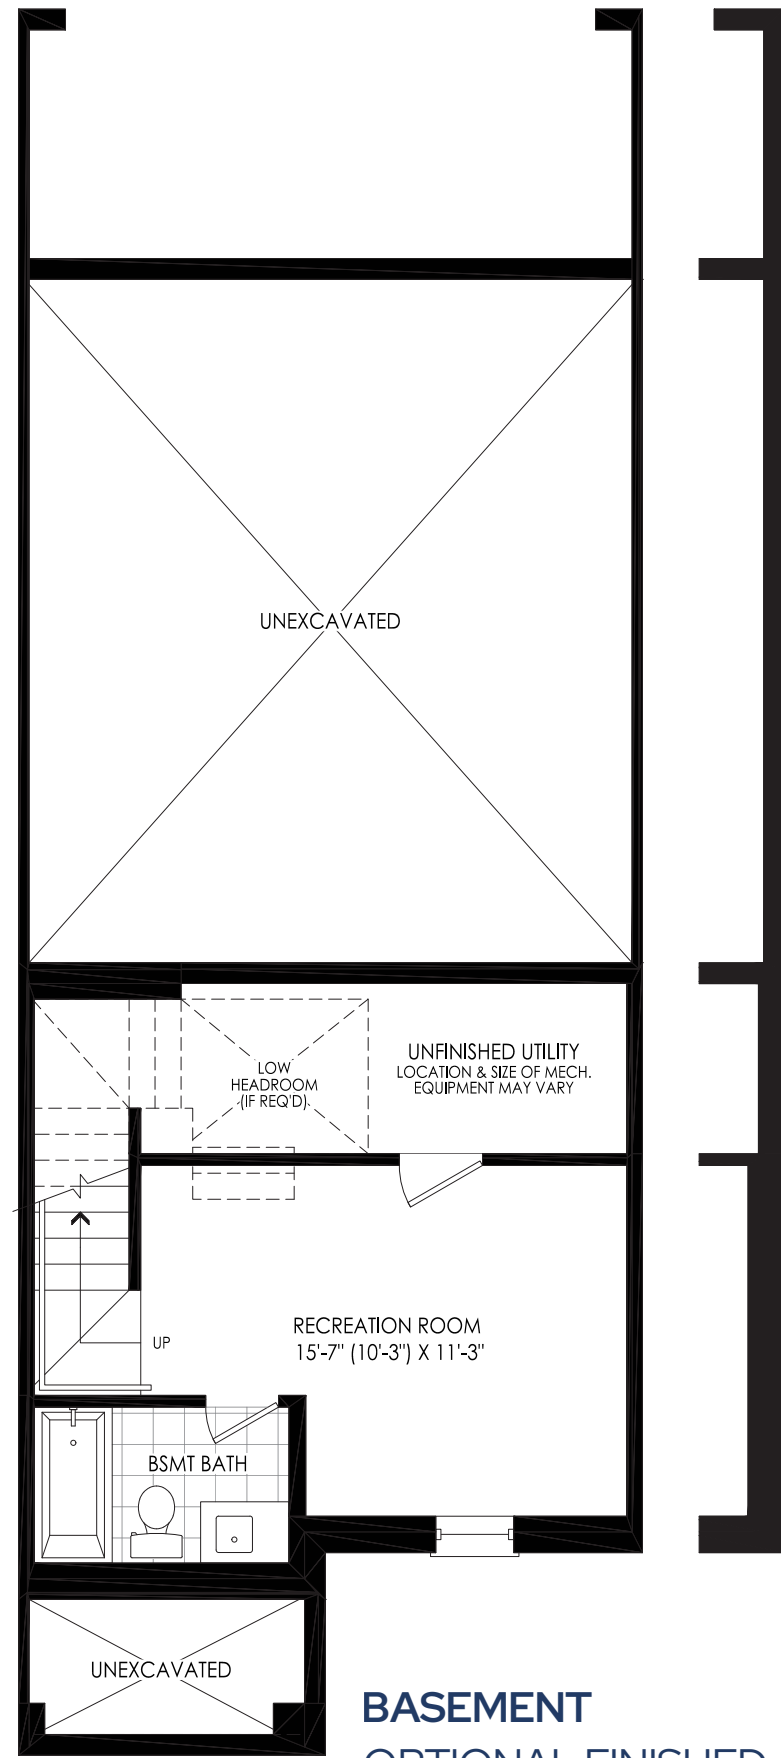

Expansive full-width glass terraces blur the boundary between indoor comfort and resort-inspired outdoor living, creating homes that feel both contemporary and serene.

Steps from future community amenities, each residence balances design sophistication with everyday livability, offering a refined urban-coastal sensibility.
